#### Superintendent of Schools Report

To the Superintending School Committee and Citizens of Warren:

Endeavor is made in this report to give school facts that are of interest and whatever should be a matter of record.

There has been but one change in the corps of teachers. The resignation of Miss Miller was received in June and Miss Orbeton, a graduate of Gorham Normal School joined the force in September. Miss Sawyer, who has for the past five years successfully taught at Anderson, this fall accepted the Highland School and Miss Orbeton was elected to the Anderson position.

Fortunate indeed are we to have at High School another year the services of two such superior teachers as Mr. Gay and Miss Goodwin. Under their able direction High School has been a great success.

Mr. Teague has for another year been janitor at the High School building and his unusual services are indeed appreciated.

At the elementary teachers' meetings this year McKee's, "Language in the Elementary School" was studied, each teacher giving examples of uses made from suggestions gained from the reading. Sept- 40 and Nov. 4 the meetings were held at the home of the superintendent and Oct. 7 a meeting was held at the school building in Union.

We were very fortunate to have Mrs. Vinal return to our schools this fall as supervisor of music. After being without music instruction for a year, the loss to our boys and girls was realized as never before and never before was the superior work of Mrs. Vinal so appreciated. The musical programs given under Mrs. Vinal's direction at Town Hall by the Primary schools on Tuesday afternoon, December 13, and by the Intermediate and Grammar schools the following Friday evening, showed the unusual work that had been done this fall term.

Warren is facing the most serious school problem since the present High School building erected sixty-three years ago. High school the coming year will have over seventy students and the seriousness of the situation can be judged by the following letter from the State Director of Secondary Education, Mr. Harrison C. Lyseth, who recently visited the school. Mr. Lyseth writes in part: "I have the following information that is troubling me and perhaps it is serious enough to bring about the withholding of the Class A, rating of your high school for this year. Your laboratory is probably one of the most inadequate in the entire state. The one window that lights the room is certainly not efficient and the heating system is such that the room cannot be effectively used during the winter months. Twentyseven students were crowded into the small room at the head of the stairs.

The school is apparently faced with the addition of another teacher to the staff next year as any en-

rollment over sixty requires more than two teachers, if a school is to be approved as a Class A school."

In addition to the usual minor repairs at all buildings, the Pleasantville building had to be shingled on both sides. The labor for this work has been paid but there was not funds to pay for the shingles and for that reason \$250.00 will be needed for repairs the coming year.

In closing this report I wish once again to express to Citizens my sincere appreciation for the finest of co-operation and generous support of our every school activity. Also I wish to thank the Selectmen and Treasurer for their promptness in attending to the many calls upon them. And especially I wish to thank the Members of the Committee, not only for their unusual interest in schools, but for their advice and help with all school problems.

Respectfully submitted,

FRANK D. ROWE.

#### Report of High School Principal.

To the Superintendent, Members of the School Committee and Citizens of Warren:

As principal of Warren High School, I am pleased to submit the following report on the high school and its activities: Last September the high school opened with one of the largest enrollments in the history of the school. At that time there were sixty pupils; however, since then two more pupils have enrolled so that now there are sixty-two boys and girls in the student body.

It is interesting to note the comparative sizes of the four classes which are: seniors 10; juniors 18; sophomores 17; and freshmen 47. These equally large classes cause a very crowded situation in the small recitation room, and it is expected that the large incoming class next fall will create a very difficult situation unless additional seating facilities are made available.

This year the school adopted a new ranking system which seems very satisfactory. The rank cards are issued at the end of every nine weeks. These new cards reveal quite accurately not only the students' rank, but also the attitude, conduct, and recitations, in each subject studied. In each ranking period thus far, at least fourteen students have maintained a rank of eighty-five or above in all subjects.

Vocational guidance has been added to the curriculum this year as an elective for the upper classes.

The extra-curricula activities at the school have been quite numerous, the student council has been planning student assemblies, each class has presented a one-act play; a Thimble Club has been formed by the girls; a small school orchestra has been organized; a minstrel show and senior play are being planned; and various athletic activities have been encouraged.

#### (Page 55)

This June the school may lose the efficient services of Miss Goodwin who has been such a loyal and helpful assistant at the high school for the past four years. I wish to publicly express my appreciation for the wholehearted cooperation which she has rendered to me and the school since I have been in Warren.

I wish to take this opportunity to personally thank Mr. Rowe, the School Committee, and the Citizens of Warren for the cooperation and support which have been given all of our school activities.

#### Respectfully submitted,

Walter M. Gay,
Principal.
